Lost Car Companies of Detroit

Among more than two hundred auto companies that tried their luck in the Motor City, just three remain: Ford, General Motors and Chrysler. But many of those lost to history have colorful stories worth telling. For instance, J.J. Cole forgot to put brakes in his new auto, so on the first test run, he had to drive it in circles until it ran out of gas. Brothers John and Horace Dodge often trashed saloons during wild evenings but used their great personal wealth to pay for the damage the next day (if they could remember where they had been). Author Alan Naldrett explores these and more tales of automakers who ultimately failed but shaped the industry and designs putting wheels on the road today.

Ghost Towns of Michigan

Many of eastern Michigan's old boomtowns and sleepy villages are faded memories. Nature reclaimed the ruins of some while progress paved over the rest. Discover the stories of lost communities hidden in plain sight or just off the beaten track. The vanished religious colony of Ora Labora fell into a state of near-constant inebriation when beer became the only safe liquid to drink. Lake St. Clair swallowed up the unique currency of Belvidere along with the place that issued it. Abandoned towns still crumble within Detroit's city limits. Alan Naldrett delves into the fascinating history of eastern Michigan's lost settlements.
